

**Polaris®**

# 180

For all inground pools.  
Works with a booster pump.

 Polaris®

# 180

The original single-jet Polaris®.

Powered by a separate booster pump, the Polaris Vac-Sweep® 180 is suitable for all in-ground pools.

Vacuums, sweeps and scrubs the bottom, walls and steps of any size pool in 3 hours or less.

Large bottom opening picks up large debris like leaves, acorns and pebbles.

Runs off a separate booster pump, working independently from the rest of your pool system.

Unique filter bag removes debris before it reaches your pump basket or filter, prolonging the life of your filtration system.
